

## 15 W Sound column

KS-15

This sound column is particularly suitable for speech transmission, featuring drused directional characteristics, strong vertical focussing and wide horizontal scattering angle. The white foiled wooden enclosure with silver-grey front skin and multi-position swivel bracket for wall mounting is used for indoor applications in churches, hotels, entrance halls, conference rooms and offices. Delivery includes complete mounting material.

Typ	KS-15
load rating	15W / 100V
Impedance	667 Ω
